## ALTERNATE GREEK ANTERRI

## CASSOCK DESCRIPTIONS

**ANTERRI (inner cassocks)** are made of a variety of fabrics from 100% cotton to tropical weight wool. Refer to the following page for fabric descriptions.

- **Classic Greek Style Anterri** comes with classic Greek collar, back placket with tie that ties around the waist, non-functioning cuffs with peak at center. It can be made with or without chest pockets. It can also be made with full hip pockets or hand-pass-thru-to-pants pockets.
- **Alternate Greek Style Anterri** comes with banded collar, back placket with tie that ties around the waist, non-functioning cuffs with peak at center. It can be made with or without chest pockets. It can also be made with full hip pockets or hand-pass-thru-to-pants pockets.

**EXORASSON (outer cassock)** can be made from all of our fabric offerings although I personally think Exorassons look best in either the 100% Polyester or the Tropical Wool fabrics. All Exorassons are made with a partial lining on the sleeves and fronts.

We typically do not add embroidery or piping to the cassocks; however, we do offer this as an option – contact us by email: [churchtailor@aol.com](mailto:churchtailor@aol.com) for a price quote.

**Do you have a favorite fit or style cassock? We specialize in custom work, send us your cassock and we will duplicate it in fit and style. We do not charge extra for this service.** Email us for more information: [churchtailor@aol.com](mailto:churchtailor@aol.com)

Chart Coordinates	Description	Measurement
	Measure over clothing for garments that are worn over clothing. For Best results, have someone help you take your measurements. Custom orders are not returnable, we are not responsible for measurements which are not correct.	Write your measurement in inches.
2	Length of shoulder seam. Measure from the <b>side</b> of the neck to where the shoulder meets the arm	
3	Regular Sleeve Length. Hold arm as if holding a candle in the front of you and measure from where the shoulder meets the arm to the wrist.	
2 + 3	Length of Arm. Hold arm as if holding a candle in front of you and measure from the center of the back of the neck where neck is level with the shoulders at the top of the spine – to the end of the wrist.	
3	If an outer cassock is ordered and you want the sleeves to extend beyond the finger tips when the arms are at your side, measure to the end of the finger tips with your arms at your side	
9	Neck Size - Measure around the part of the neck that is most full.	
1	Bottom of collar to bottom of garment, Front. (This would be where you would like the length to fall in the front. Wear shoes you would normally wear to take this measurement.)	
6	Waist (to find waist, bend to the side – the crease is where the waist is, measure around that location)	
4	Bottom of collar to bottom of garment, Back. (This would be where you would like the length to fall in the back. Wear shoes you would normally wear to take the measurement)	
5	Bottom of collar to Waist, Back	
7	Shoulder Width	
8	Chest. (Measure under the arms at the most full part of the Chest)
